physboxmaker			
player_keycatcher			
pushablemaker			

**Новое у стандартных энтити Half-Life**

В целях экономии места здесь приводится описание только новых настроек, старые пропускаются.

Разумеется, и о назначении энтити упомянуто не будет, поскольку они привычны всем мапперам под Half-Life и Counter-Strike 1.6.

<b>Новое у стандартных энтити Half-Life</b>			
env_beam	func_button	trigger_auto	gibshooter
env_fade	func_conveyor	trigger_camera	info_player_start
